

Out-Sider[®] Meridian[™]

Exterior Platform Vehicle Lift

*Transport Your
Mobility Device Outside
Your Vehicle With
Complete Confidence*

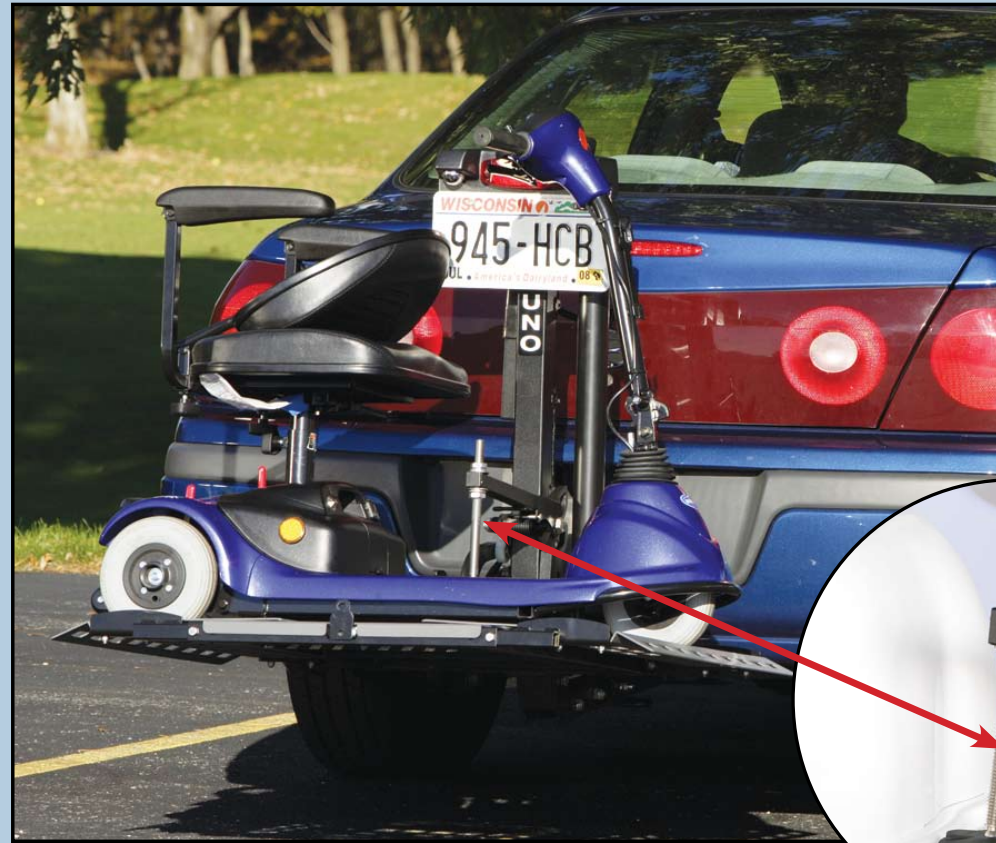

Bruno's Out-Sider Meridian exterior platform vehicle lift (ASL-250) is the most rugged, reliable and versatile exterior lift on the market. With a securement package specific to your personal mobility device, this marvelous, fully powered lift allows you to retain all vehicle seating by carrying your mobility device at the back of your sedan, SUV, minivan, pickup truck, full-size van or CUV.

Amazingly simple, one button operation makes the Out-Sider Meridian a breeze to operate. And when your mobility device is not on the lift, the platform automatically folds up as the lift is raised. Tested to 100,000 miles, under extreme temperatures and rough road conditions, the Out-Sider Meridian truly lets you...

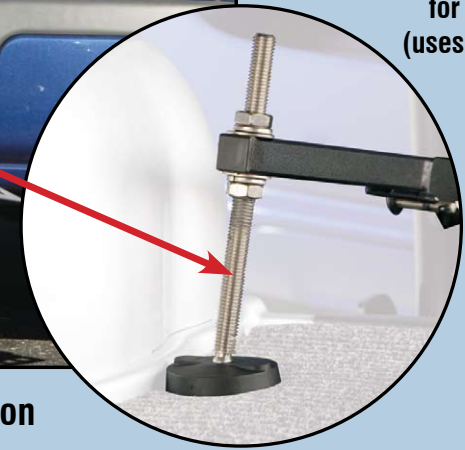

Live Life Your Way!

Out-Sider[®] Meridian works with Scooters
